

# WORKPLACE HAZARDOUS MATERIALS INFORMATION SYSTEM TRAINING

*Course Outline*

## BRIEF COURSE DESCRIPTION

WHMIS, short for the Workplace Hazardous Materials Information System, is a key Canadian safety program that offers vital information on hazardous products found in workplaces. This course is essential for anyone who might use or come into contact with these products, ensuring that students are well-informed and prepared. Students will gain the knowledge needed to safeguard themselves and their colleagues from potential hazards, empowering them to create a safer environment for everyone.

## COURSE PREREQUISITES

None

## LEARNING OBJECTIVES

By the end of this course, students will be able to:

- Recognize your duties and your employer's duties
- Recall what is indicated by hazard classes and hazard categories
- Identify the types of hazards indicated by the pictograms
